How We Started

An experiment “to engage students”

[sdcs]

Not only are they learning, but they feel like they are learning.

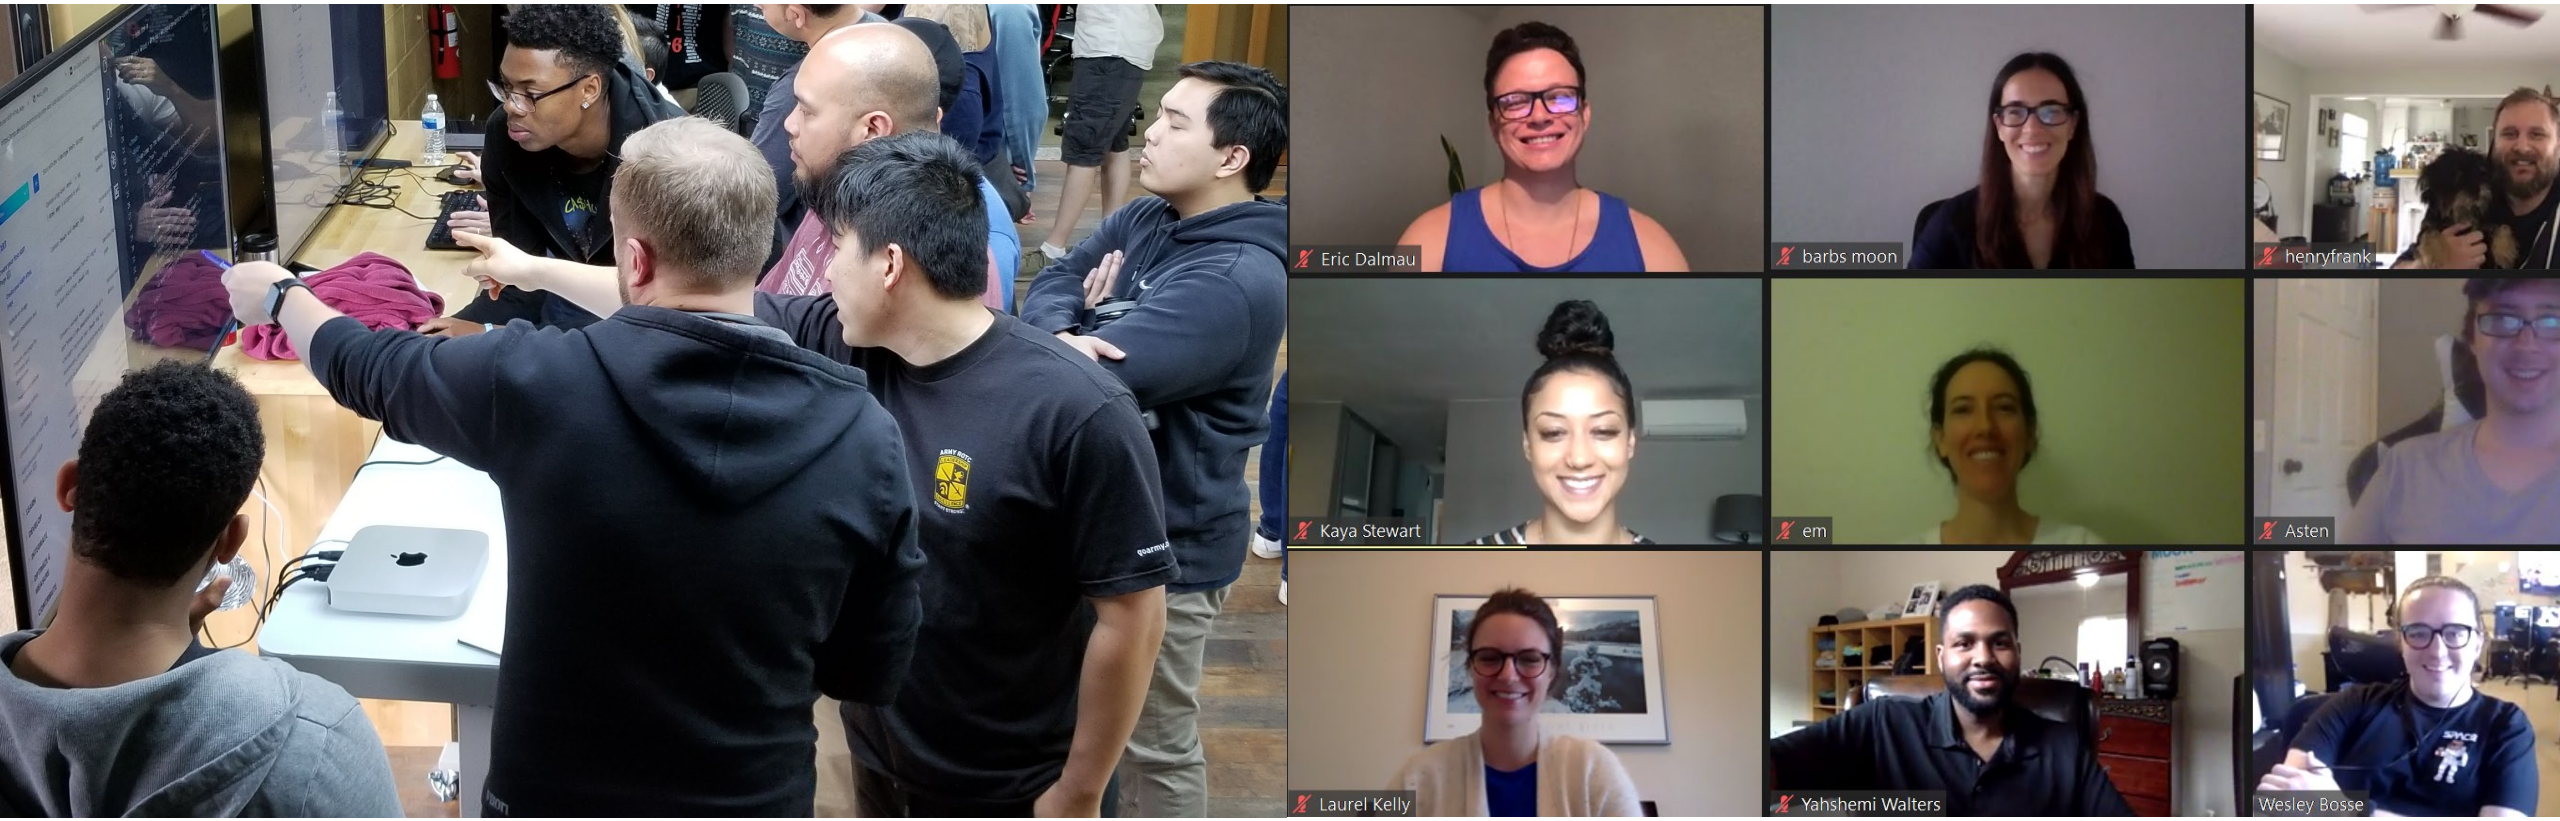
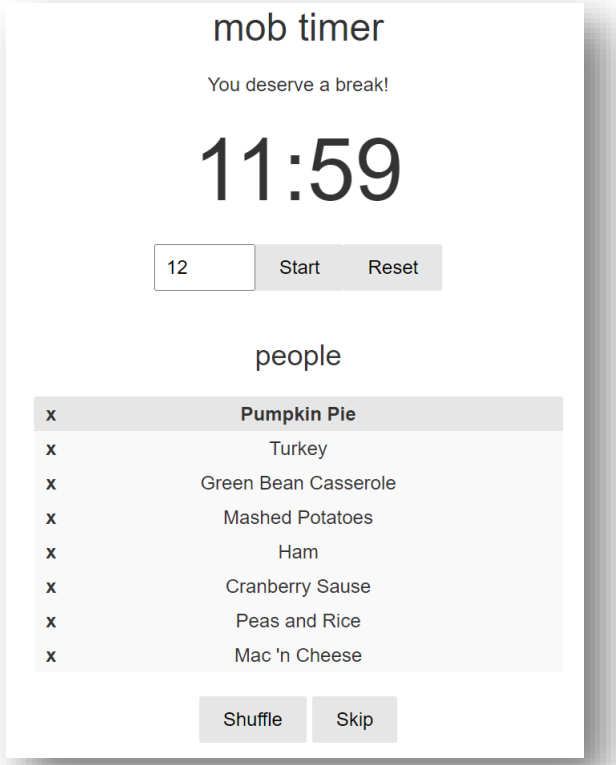
Making Adjustments



Observations, Remote Tooling



Nothing stands out as great

Pick what they are most comfortable with

Requires Experimenting and Openness

Mob Timer (http://mobtimer.zoeetrope.com/)

Screen.so (https://screen.so)

Zoom (https://zoom.us)

Miro (https://miro.com/)

Turning Up the Good

Not trying to make it fast, comfort

Longer times on the keyboard

Helping them realize Cooperation Works
